

# A CUT ABOVE THE REST

Introducing Natural Stone Hardscapes by Kafka Granite

Kafka Granite is excited to launch a new series of natural stone hardscapes! Add a stunning feature to your commercial or residential landscape projects with four classic colors of our Natural Stone Cut Drywall and Thermal-Top Steps, and three colors of our distinctive Thermal Flagstone.

Sawn tops and bottoms lend themselves to a more efficient installation than other stone hardscape, and our steps and flagstone have a thermal top finish to provide increased traction for a non-skid surface.
