

**SPECIALTY AGGREGATES**

# PREMIUM SPECIALTY AGGREGATES. TRUSTED EXPERTISE.

At Kafka Granite, we pride ourselves on being a trusted leader in specialty aggregates. With over 45 years of experience, we are committed to providing high-quality, custom solutions for every customer. Our comprehensive offering of natural stone is sourced exclusively from domestic quarries in the United States and Canada, ensuring sustainable and ethical sourcing.

We work closely with our customers to meet their unique needs, whether through custom gradations, color matching, or specialized packaging, all with a focus on reliability and consistency. Explore our capabilities and discover how Kafka Granite can provide the perfect aggregate solution to meet your specifications.

**JETT BLACK** Granite

### QUARRY DIRECT

Purchase quarry direct, ensuring transparency, reliability, and personalized service.

### DOMESTIC

Exclusively quarried in the US and Canada, ensuring sustainable and ethically sourced aggregates.

### MADE TO ORDER

Specialty aggregates made to order, ensuring custom solutions for every customer.

### RANGE OF COLOR

Choose from a robust, unmatched selection of over 50 natural stone and recycled material colors.

### CUSTOM SIZING

Custom-sized specialty aggregates crushed to meet your unique gradation specifications.

### FINISHING & PACKAGING

Specialized capabilities to dry, bag, and package products to meet customer requirements.

### SHIPPING

Variety of specialized shipping methods available to conveniently deliver aggregate to the desired destination.

### COLOR MATCHING

Ability to source or custom blend natural stone colors to aid in matching existing products.

### TESTING

Standard test data available for our wide variety of stone types, with additional testing upon request.

### SAMPLING

Complimentary samples prepared by our sample lab for customer testing, mock-ups, and approval.

### QUALITY & CONSISTENCY

Commitment to quality and consistency, providing dependable results to meet customer expectations.

### EXPERTISE

With over 45 years of experience and industry knowledge, we're committed to being your trusted partner.

## DISCOVER THE ENDURING BENEFITS OF NATURAL STONE

Natural stone has long been recognized as one of the most reliable and versatile materials available. Its inherent strength and durability make it a preferred choice for a wide range of applications, ensuring longevity and performance over time.

Beyond its robust physical qualities, natural stone offers a variety of aesthetic benefits, from its rich color spectrum to its unique textures and characteristics. The consistent, through-color allows it to maintain its appearance without fading or weathering. Natural stone is a minimally processed, sustainable material, sourced from abundant natural deposits. The composition offers measurable physical properties that ensure predictability and compatibility with other materials.

Explore the many advantages of natural stone and discover why it remains the material of choice that delivers both beauty and function.

**CRYSTAL WHITE** Quartz

**VIOLETTA** Quartzite

### **STRENGTH & DURABILITY**

Natural stone aggregates provide inherent strength and durability for long-lasting performance.

### **NATURAL COLOR**

Natural stone offers a wide spectrum of color that can be used to replace artificial pigments and dyes.

### **THROUGH COLOR**

Consistent natural stone color throughout resists fading, weathering, and chipping — preserving appearance over time.

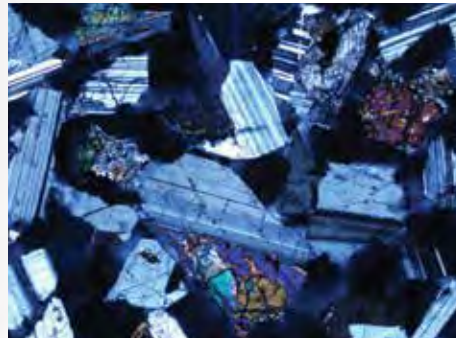

### **NATURAL CHARACTER**

Natural stone exhibits unparalleled character with unique variations in graining, sparkle, and texture.

### **NATURAL RESOURCE**

Although it takes millions of years to form, stone remains an abundant natural resource.

### **CHEMICAL MAKEUP**

The mineralogical and chemical composition allows predictable behavior and material compatibility.

### **PHYSICAL PROPERTIES**

The measurable physical properties of natural stone ensure consistency and reliability in its use.

### **SUSTAINABLE**

Natural stone is a single-ingredient, minimally processed material with zero VOCs, reducing embodied carbon.

## 50+ COLORS. ENDLESS POSSIBILITIES.

Kafka Granite offers an unmatched selection of over 50 colors of specialty aggregates, including granite, marble, quartz, quartzite, and recycled materials. With the willingness to custom blend and capability to source new quarries, our portfolio is always expanding to meet customer needs. Natural stone is highly resistant to fading, weathering, and chipping, ensuring that its vibrant color and unique character endure. Each unique stone type showcases its own distinctive graining, sparkle, or texture, making it an excellent choice for applications requiring both durability and aesthetic appeal.

## CUSTOM CRUSHED. CONSISTENT & PRECISE GRADATIONS.

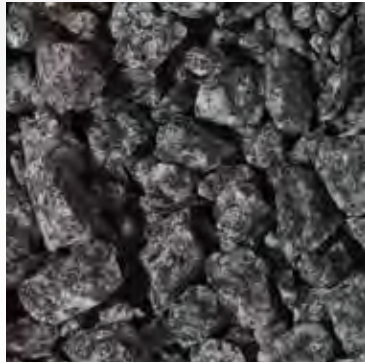

Kafka Granite custom crushes specialty aggregates to meet precise gradation specifications, ensuring a consistent and reliable product. While our stone is sourced from quarries across North America, all raw materials are transported to our state-of-the-art crushing facility in Mosinee, Wisconsin, where we maintain strict control over quality and purity. Our quality control team performs regular sieve analysis, and our sample program helps customers identify the ideal gradation for their needs — whether one of our standard sizes or a truly custom gradation. Sizing consistency is essential to our customers, and Kafka Granite delivers specialty aggregates that meet or exceed expectations.

## FINISHING & PACKAGING TO MEET YOUR NEEDS

Kafka Granite offers specialized finishing and packaging solutions to ensure our specialty aggregates meet exact customer requirements. Our unique ability to dry aggregates makes them ideal for use in epoxy resin and other specialty applications. Once dried, materials are moved to dry storage, maintaining their quality before shipping.

We also offer versatile packaging options, including supersacks and 50 lb bags, to accommodate diverse needs such as job site accessibility, indoor storage, or distribution. Conducted entirely at our controlled facility, these processes ensure consistency, quality, and reliability — simplifying material handling while meeting precise specifications.

# TRUSTED & RELIABLE TRANSPORTATION OPTIONS

At Kafka Granite, we strive to make our products as accessible as possible by offering expert assistance with shipping and logistics. Through our network of trusted transportation partners and preferred carriers, we help simplify the process of moving materials safely and efficiently across North America or internationally.

From bulk end dump, to flatbed, conestoga or dry van, as well as LTL and intermodal options, we provide tailored solutions to meet your needs. While customers are welcome to arrange their own transportation, our service helps remove the guesswork, ensuring your products arrive on time while maintaining the highest quality standards.

## NATURAL CRUSHED STONE FOR A MULTITUDE OF INDUSTRIES

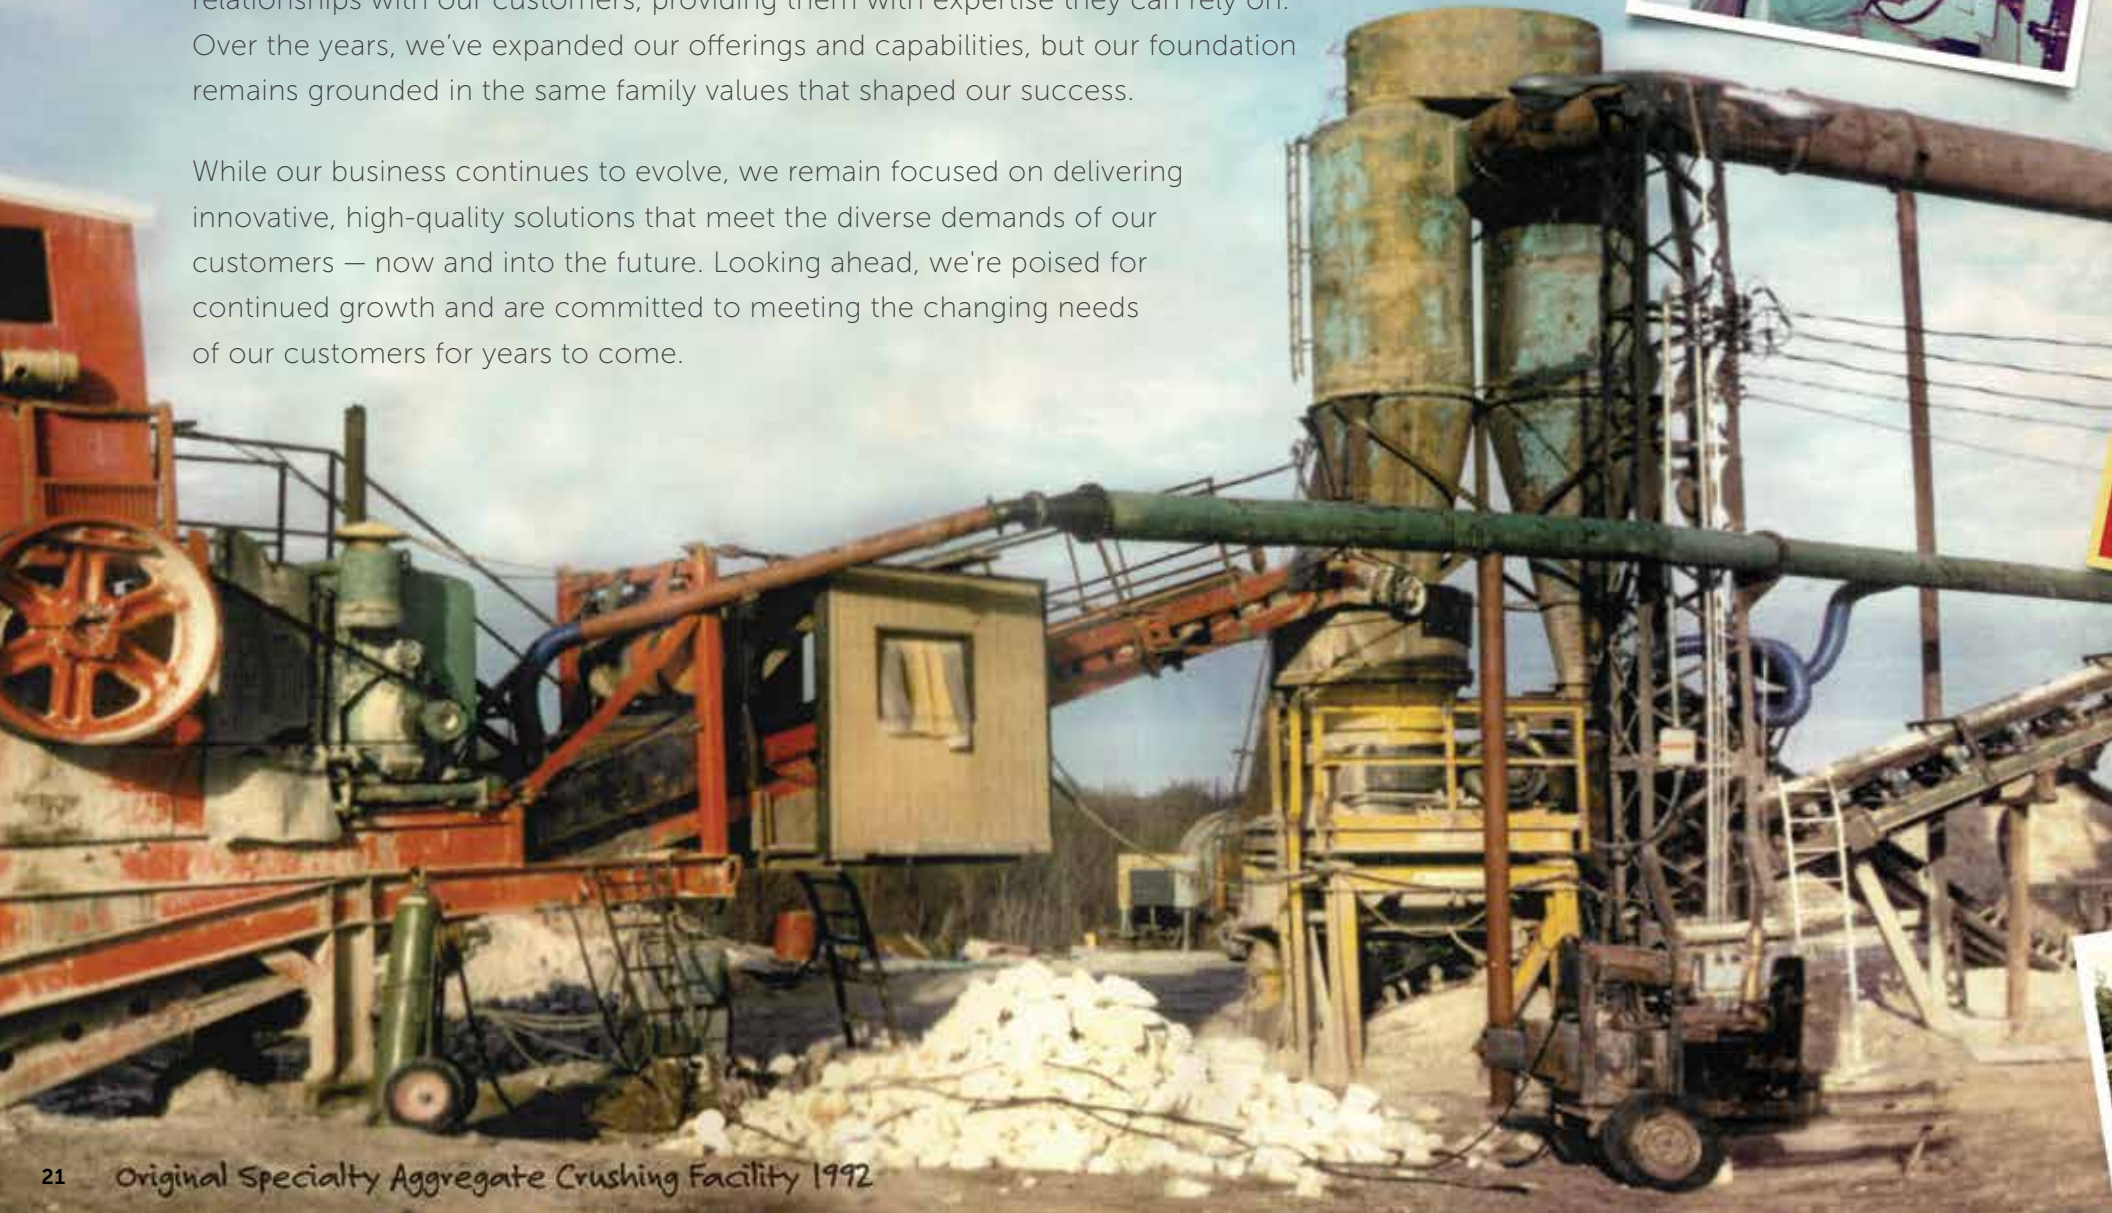

Kafka's specialty aggregates are trusted across a wide range of industries and applications, offering versatile and innovative solutions for diverse needs. From architectural precast concrete wall panels and decorative precast concrete to manufactured hardscapes and cast stone, our aggregates enhance both the aesthetic and structural qualities of products. They are also widely used in exposed aggregate concrete, high-friction surface treatments, terrazzo and epoxy stone flooring, and resin-bound paving. Additional applications include engineered quartz countertops, aquarium substrates, and industrial uses.

# A FAMILY BUSINESS DRIVEN BY INNOVATION

Kafka Granite has been a family-owned business for over 45 years, and producing specialty aggregates has always been at the heart of what we do. Our deep-rooted experience and commitment to quality have allowed us to build long-lasting relationships with our customers, providing them with expertise they can rely on. Over the years, we've expanded our offerings and capabilities, but our foundation remains grounded in the same family values that shaped our success.

While our business continues to evolve, we remain focused on delivering innovative, high-quality solutions that meet the diverse demands of our customers — now and into the future. Looking ahead, we're poised for continued growth and are committed to meeting the changing needs of our customers for years to come.
